radiotelephone licenses DO NOT qualify.
How To Get an Account
1. Download, install and configure any client software. We suggest Winlink Express. Study its help about installation and use.
2. Using Winlink Express, follow the account creation instructions presented by the program, and ignore what follows. Winlink Express makes the process easy. If you use another client, proceed...
3. Connect with the system (send a message) to create your account. Do not use a password on your first connection. Your radio email address is YOURCALL@winlink.org. A message containing your password will be sent to your account. Retrieve it with a second connection. Secure login will now be enforced by the CMS so, be sure to set your password in your client program.
4. At any time, use the form (lower right) to have a password re-sent to your account address. Retrieve

Winlink is...
...a worldwide radio email service that uses radio pathways where the internet is not present, and is capable of operating completely without the internet--automatically--using smart-network radio relays. Winlink provides its users email with attachments, position reporting, weather and information bulletins, and is well-known for its role in emergency and disaster relief communications. Licensed Winlink operators/stations use both amateur radio and government radio frequencies
ARDOP and VARA Now Beta Testing In Winlink Software
The ARDOP (Amateur Radio Digital Open Protocol) and VARA protocols are both now fully integrated into software by the Winlink Team. Where BPQ32 allowed both these soundcard modems (radio protocols) to be used on the Winlink system during protocol beta testing and after. Now they have been integrated into the systems' most popular software, RMS Trimode on the server side, and Winlink Express on the client side.
To get the beta software, enable the checkbox for allowing beta software to be auto-updated in your programs. You will

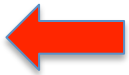
widgets like selection boxes, check boxes, and more. Further, lightweight form contents can be transmitted without the form itself, then automatically read at the other end inside the electronic form with a browser. A large common library of forms is included with each copy of Winlink Express. And, the forms and templates are also transportable across a radio connection as attachments, retrievable by radio from the Winlink Catalog, or downloadable from the Winlink Forms Library.

RMS Express Message Log Report Generator creates automatic reports from your local Winlink Express message records. Generates ICS-309 reports for ICS compliance and comma-separated text files. Lets you choose what logs to include in the report (Inbox, Read items, Outbox, Sent items, Saved items, Drafts, Deleted items). Download from the Winlink FTP site: ftp://autoupdate.winlink.org/ under "User Programs". Be sure your browser is capable of FTP downloads! (You may need to add a plug-in to your browser for this.)

Download

Winlink Express (current production version)



Amateur Radio Safety Foundation, Inc.

Winlink is an all-volunteer project of the Amateur Radio Safety Foundation, Inc. (ARSFI), a non-profit public benefit corporation.

If you use Winlink email, or correspond regularly with someone who does, please donate to ARSFI. By giving $25 each year you will do your part to keep this important system running. *Donations are tax-deductible by US federal taxpayers.* A donation is always the best way to say "thank you" to Winlink volunteers!

The Winlink Development Team

The Winlink radio email system and software are built, maintained and supported entirely by volunteers.

Victor D. Poor, W5SSM (SK)
Rick Muething, KN6KB
Lee Inman, K0QED
Phil Sherrod, W4PHS
John Wiseman, G8BPQ
Steve Waterman, K4CJX
Tom Lafleur, KA6IQA
Lor Kutchins, W3QA
Neil Hughes, VE1YZ
Don Trotter, VE1DTR

Outstanding Volunteers

The entire Winlink system is dedicated to the volunteer Gateway Station Sysops who support and run the thousand-plus stations around the world. Without them, Winlink would not exist. Be sure to write with generous thanks to the sysops who provide your service (RMSCALLSIGN@winlink.org).

Volunteers attend daily to the Winlink web site, e-mail groups, tutorial groups, nets, user registrations, access rights, RMS servers, catalog and bulletin updates, and much more. The Winlink Team also receives generous technical input and
