Lee County Florida ARES®

Training Bulletin: #2

Course/Topic: FEMA SID Registration

ARES® Training Level: ALL

Description: The FEMA Student Identification Number (SID) is used to register for and track activity related to FEMA Independent Study Program courses such as IS-100, IS-700, etc. You are required to register in order to complete those courses and to track your progress.

Registration Instructions: Search the Internet for the FEMA Student Identification System and click the Register for FEMA SID button on the website. Complete the registration form online and be sure to note your SID and password for future use. If you have previously completed FEMA courses using your social security number, you can contact the FEMA Independent Study Program office at the phone number or email listed on the registration website and they will cross populate your former courses to your SID account. You will now use your SID and password to register for classes that require it and to complete the exams associated with courses you complete.
