

LEE COUNTY FLORIDA ARES® COLOR ZONE NET CONTROL STATION LOG

Introduction: The **LEE COUNTY FLORIDA ARES® COLOR ZONE NET CONTROL STATION LOG** is a Net Control Operator (NCS) and/or Alternate Net Control Station (ANCS) aid for use when operating a Color Zone Net during an exercise or activation. It is intended to be used to assist an NCS with documentation and tracking of station check-ins and other relevant activity. The directions and tips offered below are a guide for using the log, but the station completing it can annotate it as necessary to provide clarity for themselves during the net. NOTE: Whenever there is a new NCS/ANCS, that operator should start a new log sheet.

Box Title	Instructions and Tips
Incident Name	Enter the name for the exercise, event, or activation.
Date	Enter the date(s) that the log encompasses.
Page Number	Enter page numbers on each page of the log to indicate the number of pages associated with the log for this NCS or ANCS if applicable.
ARES® Net Name	Print the name of the ARES® Net.
Net Frequency or Repeater	Enter the frequency that the net is operating on or the frequency and name of the repeater if applicable. Enter more than one frequency if applicable during this operational period.
Net Control Station Call Sign/Unit #	Enter the call sign and Unit # for the NCS.
Call Sign	Enter the call sign of the station that is checking into the net.
Name	Enter the name for the station that is checking into the net.
Check In	Enter the check in time for the station checking into the net.
Check Out	Enter the checkout time for the station leaving the net. NOTE: Start a new line if a station that checks out checks in again later during the net. This is not necessary for a station that was sent to another frequency to complete a task of some kind.
Notes and/or Task Pending	Enter important information, notes, tasks, station location, etc. that NCS/ANCS needs to document the activities as well as manage the net. Some of this information will likely be entered on other documents like an ICS-214, ICS-309, or other applicable document as needed during the exercise, event, or activation.
Task Completed	Enter the time when a task is completed or other information that the NCS/ANCS needs to note.
