ARES® NET SCRIPT
Lee County, Florida

</div>

CQ, CQ, CQ… CQ Members of the Lee County ARES® Team
    …please stand by on this frequency for the Weekly ARES® Net.

Pause…

This net is intended as a training session for ARES® members in Lee County, and for the discussion and dissemination of ARES® Information.

This Net meets each Wednesday night at 7:00 PM local time.

Your Net Control for tonight is (call sign) _____ and my name is _____.

This net is open to any station wishing to check-in. It is a directed net, so all traffic and comments must go through Net Control. Please follow the instructions of net control. During an activation it is imperative that we follow instructions so that traffic can be passed efficiently and accurately.

In the event of a repeater failure, please switch to the 146.880 Repeater (Memory 7).

Pause and unkey to allow the repeater to reset…

This is (call sign) _____, Net Control of the ARES® Net.

I will first take check-ins from members of ARES®; I will then take non-members.

Members should check-in by saying their Unit Number, followed by their Call. It is NOT necessary to say "Net Control" and pause first…Just give your Unit Number and Call.

Pause…

> 1 -- I will take member check-ins starting with units 1 thru 15.
>   *Acknowledge check-ins by member #. Then ask "Any more from this group.?"*
>
> 2 -- I will now take member check-ins starting with units 16 thru 30
>   *Acknowledge check-ins by member #. Then ask "Any more from this group.?"*
>
> 3 -- I will now take member check-ins starting with units 31 thru 45.
>   *Acknowledge check-ins by member #. Then ask "Any more from this group.?"*
>
> 4 -- I will now take member check-ins starting with units 46 thru 60.
>   *Acknowledge check-ins by member #. Then ask "Any more from this group.?"*
>
> 5 -- I will now take member check-ins starting with units 61 thru 75.
>   *Acknowledge check-ins by member #. Then ask "Any more from this group.?"*

6 -- I will now take member check-ins starting with units 76 thru 90.
   Acknowledge check-ins by member #. Then ask "Any more from this group.?"

7 -- I will now take member check-ins starting with units 91 and up.
   Acknowledge check-ins by member #. Then continue to the next group.

Identify: This is (call sign) _____, Net Control of the ARES® Net.

8 – *ASK:* Are there any LATE check-ins of ARES® members?
   Acknowledge late check-ins.

9 -- I will now take check-ins from operators who are not members of our
   ARES® Team. Please check-in by giving your Call Sign and First Name.
   Acknowledge check-ins.

10 – *ASK*: Does anyone have a bulletin or announcement for the net?
   Have operators give their bulletins or announcements.

11 -- Call on the Emergency Coordinator (Steve Smith W9GPI) for his comments.

12 – *ASK*: Does anyone have a question for the Emergency Coordinator?
   If yes, acknowledge the operator (s) and have them ask their questions.

13 – *ASK one last time:* Are there any more LATE check-ins?
   Acknowledge late check-ins.

Take a minute to gather the number of check-ins and total time taken, then…

14 – Prepare an ARRL Radiogram showing yourself as Net Control Station and
   reporting the number of check-ins and the total time of the net from start to
   completion. (See Radiogram Sample.)

15 – Call W9GPI and pass the Radiogram to him.

16 – Thank everyone for checking in and then say, "This is (call sign)_____
   …closing the net and returning this repeater to normal amateur use."
